2. Choose a design and finish (single-face reverse or double-sided).
3. Call us and place your order! 1-800-565-4100

# COOL IDEAS

Some of the best street banners are done by you!

Who knows more about your city than the people who live in it? Hosting a banner contest can be a really great way to get your community involved in adding colour and excitement to your banners.

We've seen kids artwork, local photographers, Art Clubs and school programs all work with their BIAs or Municipalities to create stunning banner programs. Pick a theme or a season and put your call out to see all the incredible local talent that's right at your finger tips!

Whether you use the community or your own designer, Flags Unlimited will custom print banners to suit your requirements.

# HELPFUL HINTS

Here are some helpful hints on submitting art.

## Accepted File Formats

- Adobe Illustrator. Save as (.ai), (.eps) or (.pdf).
- Adobe Photoshop. Save as (.psd) or (.tif), preserve layers if possible.

## Colour

- Vector art should have assigned coated Pantone values.
- Use CMYK colour space.

## Resolution

- For optimal printing results we recommend creating art at 720DPI, 10% of actual size.
- Linked and embedded files must be included with your composite file.
- Convert all text to paths in Vector art.
- Use coated Pantone values when exact colour is required.
- Special effects such as drop shadows, overprinting or transparencies could have unexpected outcomes. Use wisely.
- Call if you need help! 1-800-565-4100.

# TO ORDER:

1. Check the size of banner you require and sleeves size (sleeve should be 2x the diameter of the arm).
2. Choose a design and finish (single-face reverse or double-sided).
3. Call us and place your order! 1-800-565-4100

## ADJUSTABLE BANNER BRACKET (ABB)

This two-piece bracket makes taking banners down and changing banners out easy. The arms can be taken down while leaving the base of the bracket attached to the lamp post. Great for areas where banners are only displayed seasonally.

The base of the arm is adjustable making installation easier. The arms can move approx. 2" up and down to accommodate banner sizes without having to re-install the entire bracket and strapping to the lamp post.

Available for 28" wide banners.

## HEAVY DUTY BANNER BRACKET (HDBB)

Excellent for high wind areas. This system is ideal for lamp posts. The bracket and arm system is designed to ease the wind load on your banner as well as your lamp post or light standard.

The HDBB won't rust. Most of the brackets on the market do not have stainless steel mechanics and will rust in the weather over time.

Available for 28" or 36" wide banners.

## TO ORDER:

1. Check the size of banner you require and sleeves size (sleeve should be 2x the diameter of the arm).
2. Choose a design and finish (single-face reverse or double-sided).
3. Call us and place your order! 1-800-565-4100
